# Perfect Hygiene with **Creavit Pans**

For over 50 years, Creavit has been creating diversified bathroom product lines, primarily ceramic sanitary wares. Now as hygiene becomes the top priority, it continues to provide solutions to constantly evolving and developing expectations with technological innovations for the bathroom.

## **Rimless Rim-Off Pans**

Creavit's rimless pan technology Rim-Off minimizes hard-to-reach surfaces on pan bowls, preventing bacterial growth by leaving no surface inaccessible inside.

## **Combined Bidet with Integrated Bidet Faucet**

Resurfacing scientific evidence relating to water usage after pan use has become increasingly significant and has led to increased global interest in products with bidet faucets. Creavit stands out in this category with its integrated bidet faucet technology, featuring adjustable cold and hot-cold water.

## Pluggable Pan Cover

Additionally, with Creavit's single-action removable pan covers, all surfaces can be easily cleaned. Creavit recommends the use of pan covers made from antibacterial duroplast, as they are typically the most touched bathroom surfaces.

# An iconic design

## Flat

One of Creavit's premium bathroom furniture sets, Flat offers iconic products for modern bathrooms.

## Bathroom Furniture

With its 160-centimeter Palazzo-colored lacquered washbasin module, Flat catches the eye with its water-resistant large granite countertop. The mirror placed between the countertop and washbasin module reflects meticulous and detailed craftsmanship. The 100-centimeter round mirror allows a larger angle of vision and the touch LED lighting softly illuminates the bathroom, even without ambient light.

Along with the large countertop for your daily personal care, health and cosmetic products, the set includes a 160-centimeter push-to-open washbasin module, double drawers and a high cabinet with shelves offering large storage area alternatives. Another convenience offered by Creavit is Flat's LED light drawer illumination.

## Washbasin

Flat's premium style is completed with the 60-centimeter Loop washbasin, a thin-edge basin from the new series that is attracting great interest.

## Faucet

The elegant faucet of Foglia, another premium series designed by the world-renowned Turkish designer Defne Koz, goes perfectly with Flat's stylish lines.

### Special storage areas for personal belongings

The drawer in the bottom module of Elata; It offers a special storage area for items that are problematic to store in the bathroom, such as hairdryers, hair brushes and curlers. Items that can be placed vertically can be easily removed from its special compartment and are always at hand. In addition, the cabinet area in the lower module offers a practical storage space for your other belongings thanks to its large internal volume.

## Stylish and useful

# Power of Simplicity

## Link Bathroom Furniture

As one of Creavit's modern bathroom furniture sets, Link is an ideal choice for new generation bathrooms with simple lines and several color combinations.

### Bathroom Furnitures

The Link furniture set includes arcadia, arcadia-anthracite or arcadia-white color options, an 80-centimeter washbasin module, an over-basin top module and high cabinet. It features a slow-closing cover in every model and is very practical with an integrated mirror and push-to-open doors on the top module.

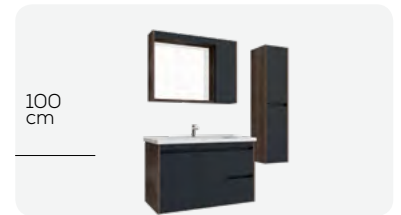

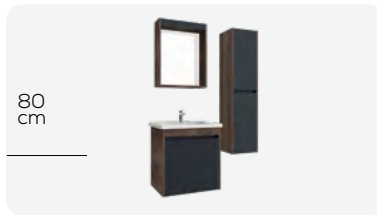

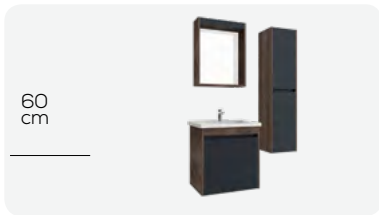

## Washbasin and Pan

The other components of the Link set are an 80-centimeter Ideal washbasin that matches the furniture, and Mare Rim-Off back-to-wall pan. Preventing a suitable medium for bacteria growth, Rim-Off toilets ensure ease of cleaning and save time, combined with Link's modern touch.

## Faucet and Accessories

The graceful matte black Sharp basin faucet enhances the modern look of Link bathroom furniture. A notable part of the combination, the matte black Sharp faucet is made of sturdy and long-lasting brass and is also one of Creavit's exceptional pieces with its modern design and an aerator equipped with a limescale removal system. Matte black Planet accessories accompany the elegance and practicality of the Link set.

## Hydromassage

Water therapy has been used as an alternative treatment method for centuries. The relaxing and refreshing power of water creates positive effects on the human body and psychology. Creavit's bathtubs with hydro-massage system help to regenerate spiritually and physically by combining the refreshing power of water with high technology systems.

Hydromassage accelerates blood circulation and contributes to the removal of toxins from the body. At the same time, the contact of the body with water in the form of a massage stimulates the nerves. Thus, it helps to relieve some pain and get away from the stress of daily life. After sports activities or at the end of a tiring day, hydromassage is very effective in resting and regenerating the human body and provides mental relaxation.
